Flooding status in the Pittsburgh Seam - Donora, PA, Quadrangle

Legend:
- Water treatment plant
- Mine discharge
- Mining area
- Pittsburgh coal bed

Legend:
- Flooded or unknown
- Flooded

This mapping is a reasonable, but not exact, facsimile of the distribution of underground mine areas. Mine map outlines were compiled from a variety of original and secondary sources of varying accuracy. While the absolute accuracy of specific timber locations, mine outlines, and unmined coal blocks may not easily be estimated, it may be considered to typically range from 30 to 100 meters. Mine features have been generalized. Unmined coal blocks within mines were mapped only if their total area was greater than about 40 acres.
