Flooding status in the Pittsburgh Seam - Valley Grove, WV-PA, Quadrangle

Legend:
- Indoor mine
- Outdoor mine
- Flooded
- Unflooded

This mapping is a reasonable, but not exact, facsimile of the distribution of underground mined areas. Mine map outlines were compiled from a variety of original and secondary sources of varying accuracy. While the absolute accuracy of specific loam locations, mine outlines, and unmined coal blocks may not easily be estimated, it may be considered to typically range from 0.1 to 0.5 miles. Mine features have been generalized to provide a more useful map of the coal region. Unmined coal blocks within mines were mapped only if their total area was greater than about 40 acres.
